

## Bowman Restaurant Refurbishment

The Trust wanted to improve the existing restaurant facilities and offer a different variety of health food options. Areas for open dining, private dining, and areas where staff could work and dine at the same time. Create a new servery area where a variety of offerings could be served. Improve the current kitchen equipment to allow different food servings to cater for those who have specific dietary requirements.

DAY PM made various contributions such as: Listen to the client's requirements and understand their specific needs. The Retreat is a refurbished restaurant with over 150 covers and a re-imaged catering offer that provides healthy, fresh seasonal food. The concept was developed that aims to create a genuine sanctuary, away from the busy hospital environment. Key to the space is a bespoke banquette seating area which includes a spine of planting that welcomes people into the space and creates a natural barrier to add privacy to the main seating area. Complete new servery area. Scheme completed July 2022 and rebranded as The Retreat restaurant.

Client: Wirral University Teaching Hospital, Clatterbridge Hospital

Value: £600K

Programme: Completed June 2022
