

PHILIP DAVIES

Director

Philip has accumulated over three decades of experience in the construction industry, holding diverse roles including Health & Safety Management, Contract Management, Planning, Maintenance, Facilities Management, Project Management, and Director of Operations and Facilities in a utility company and a Football League club.

Starting his career as an apprentice joiner, Philip progressed to earn a BSc (hons) Degree in Construction Management. He also holds NEBOSH General and Construction Certificates, as well as an NVQ level 4 in spectator safety. With a career spanning both public and private sectors, Philip possesses a comprehensive understanding of the dynamics between stakeholders involved in project delivery, having worked on both contractor and client sides. He leverages this experience to support all members of project teams effectively.

Philip has acquired substantial expertise in stakeholder management through his tenure with the NHS and extensive years in the construction industry. His contributions have garnered positive client feedback, highlighting his dedication, hard work, and commitment. These qualities underscore Philip's ability to enhance all facets of a project. Philip has significant knowledge of stakeholder management gained as a PM and Head of estates in the NHS at Blackpool Teaching Hospitals. He has also worked with other health care providers such as Northern Car Alliance, Lancashire Teaching Hospitals NHS Trust, Wirral NHS Teaching Hospitals, University Hospitals of Morecambe Bay and United Lincolnshire hospitals.

Philip has helped to deliver 3 Community Diagnostic centres in the last 2 years and used the lessons learnt and applied these to support the client and project team achieve reduced delivery times and costs. This followed the delivery of 4 new theatres using modern methods of construction and a new Endoscopy unit. Having also spent time on secondment as Programme Manager, Philip supported Wirral Teaching Hospitals deliver a capital programme of £57million. Philip was also seconded into University of Morecambe Bay as head of Capital supporting delivery of the capital programme and implementing a standardised approach to delivery of Capital Projects

Philip has helped develop excellent working relationships with several key organisations to demonstrate how he can add value to all aspects of projects.
